

Count until 20

Team Building Exercise # 14

Objective: Team work to accomplish the task.

Steps :

- Make a group and stand in a circle.
- The goal is to count to twenty as a group, but it is not that easy.
- One person must say a number at once. If more than one person goes (or if somebody starts to say the number) you must go back to the beginning. Once somebody says one number without anybody interrupting, another person must say the next number without anybody interrupting, and so on.
- Keep going until your team reaches twenty.
